

Simply Revolutionary: 2.75%

Now when you swipe a card with Square there is just one fee: 2.75%. What you see is what you pay.

Square lets you accept credit cards quickly and easily, using what you already have in your pocket: your phone. When you want to know how much money you've made, you no longer have to wade through a complex maze of hidden costs and fees. Just simple multiplication and you know what will be in your bank account.

Payments, simplified.

Do businesses know what they pay for credit card processing?

If you enter credit card numbers manually, Square costs 3.5% + 15¢ per transaction.
