Apps

Dailyvroom: Daily Vroom delivers a personalized brain building activity for your child every day with a science-based Brainy Background explanation to how the activity supports your child's brain development.

Text4baby: Text4baby makes it even easier for you to get critical health and safety information texted to your phone. You'll also receive health and safety tips and have access to interactive features, including how your baby is growing each week, your progress and medical updates and fun quizzes.

CO Play & Learn: Parents and caregivers have easy access to early literacy learning from Colorado librarians for children from babies to preschoolers through CO Play & Learn. The app offers quick learning tips accompanied by colorful graphics to help children develop pre-reading skills and simple games and activities in both English and Spanish.
